Message:

Please reply to this post to indicate that you are present for the meeting. As soon as a quorum of the board (6 of 10) replies, we will begin the meeting.

Note that it is not necessary that you be present during every day of the meeting. Based on our previous board meetings, we are operating under rules which generally allow extended discussion (usually one to two weeks) on a motion and a week to respond after a vote is called.

If you are out of reach of web access for more than several days, you might as a courtesy post your time of absence as a reply to this topic.

If you are not subscribed to the entire bulletin board or at least the "Board Category", please remember to subscribe at least to the "2012 Annual Board Meeting" so that you will be alerted when new posts are made.

I have locked all the other Board Forums so that discussion will be limited to the "2013 Annual Board Meeting" forum. However, you may view any of the other forums at any time to see what discussion has already taken place on particular topics. When appropriate, you can even cut and paste previous discussion into this forum.

Dear all! I'm here but in few days I'll be at the ice of the Aral Sea for sampling fishes and invertebrates. When I'll be in the expedition I'll not have connection to Internet. I'll be back to my Institute and Internet February 9th. I'll try to join our virtual discussion on arrival back.

I am pleased that we have a quorum so quickly and think we should start the meeting. Please consider whether you want to discuss any items of interest to the society not on the agenda. I note that we certainly want to hear from our Chinese colleagues concerning the next international conference during this board meeting.

I'm immersed/swamped with teaching right now, but will try to post my reports Saturday.

Dear all! I came back to Russia from my sampling on the ice of the Aral Sea. In 3 weeks we collected a lot of samples of plankton and benthos + some sampling commercial fishes and invertebrates.

There has been very little activity on the board forum in the past days/weeks, and I propose to close this meeting on March 20. I will start summarizing the different items on the agenda. The forum will remain open also after the formal adjournment of the board meeting, so comments can always be added; this may be especially relevant for issues relating to the preparation of the 2014 meeting in China.

Reply author: aoren**Replied on:** 19 Mar 2013 21:48:53**Message:**

As announced ten days ago, I now close this meeting.

I want to thank all board members for their participation. We will meet again on this forum in the beginning of 2014, and then we will have to discuss important matters such as the 2014 symposium in China, the future of our society and the elections for a new board.

Best wishes,

Aharon
